

MINISTER TO MEXICO HAS RESIGNED POST

SECRETARY BRYAN HAS ACCEPTED
RESIGNATION OF AMBASSADOR WILSON.

MAY ANNOUNCE POLICY

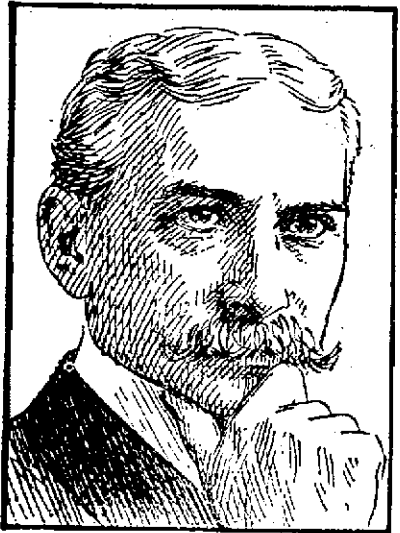

President Has Under Consideration
First Step Toward Solution of
Present Mexican Crisis.

Washington, Aug. 4.—Secretary Bryan today announced the acceptance of the resignation of Henry Lane Wilson as ambassador to Mexico. Ambassador Wilson had returned to Washington today for a conference with Secretary Bryan. The ambassador's return evidently had been arranged on short notice. His telegram from Secretary Bryan merely said he was wanted to confer on "important matters." Mr. Wilson himself disclaimed knowing for what he had been summoned.

Secretary Bryan made the following statement:

"Ambassador Wilson's resignation has been accepted to take effect October 14. The part which he felt it his duty to take in the earlier stages of the recent revolution in Mexico would make it difficult for him to represent the views of the present administration in view of the situation which now exists."

practice is entitled to sixty days exclusive of Sundays, which accounts for the fixing of the date of October 14 in the announcement. In the meantime no appointment can be made of a successor as a vacancy will not exist until that date. Consequently the American embassy in Mexico will remain in charge of the city of Washington which is now conducted by Charles Algers.

The announcement followed a conference with Secretary Bryan to which Mr. Wilson had been summoned from New York by telegram. Earlier Mr. Wilson broadly intimated that he expected his resignation would be accepted at almost any time and pointed it out that he had tendered it three times since March 4. The resignation will be followed by

GETS INFORMATION ON MEXICAN AFFAIRS

Reginald F. del Valle.

Reginald F. del Valle, the government's secret envoy to Mexico, who brought back valuable information concerning affairs in that country, is one of the men from whom the president is getting the information on which he will make his decision regarding the part this country will play in the settlement of the Mexican trouble.

An announcement of the policy toward Mexico by President Wilson would be permitted to leak out, but there were assurances that armed intervention was out of the question and there were reasons for believing the announcement would deal with this government's attitude toward export of arms to Mexico.

Mr. Wilson became ambassador to Mexico in 1909 after diplomatic service in Chile, Belgium and Greece.

PRESIDENT TO LEAD VENEZUELAN TROOPS IN FIGHTING CASTRO

Issues Proclamation—Army of Veterans and Recruits Being Mobilized in Town Near Capital.

Caracas, Venezuela, Aug. 4.—President Juan Vicente Gomez intends to take personal lead of the Venezuelan army operating against Cipriano Castro, whose followers have risen in the provinces of Falcon and Tachira, and also in the western district of Venezuela. President Gomez issued the following proclamation:

"Castro, the former dictator, having disturbed the peace of the country, I, myself, will take the field and re-establish order. I know that every soldier and officer will fulfill his duty."

An army of veterans and some thousands of recruits is being mobilized at the town of Maracay, fifty miles southwest of the capital. These forces are expected to attack Castro in the state of Falcon, and drive out Cipriano Castro. They will proceed there in two divisions by land and sea. Another army is being assembled at Barquisimeto, the capital of the state of Lara, one hundred and sixty-five miles southwest of Caracas. This force will endeavor to cut off Castro's escape into the interior. Although business here has come to a standstill and stock values have gone down, the people express confidence that the government will be able to suppress the rebellion.

Bryan's Statement.
Washington, Aug. 4.—Secretary Bryan today issued the following statement regarding the pending Nicaraguan treaty:

"The president has not changed his views as to the main features of the foreign relations committee of the senate for consideration informally, but owing to the fact that the senate's time is occupied with the tariff and currency bills further consideration of the treaty with Nicaragua to important matters will be deferred until the regular session."

Investigator's Report.
Los Angeles, Calif., Aug. 4.—Reginald F. del Valle is at home today after having reported to President Wilson at Washington the results of his mission as special commissioner of the American state department to Mexico.

He declared reports that foreign governments had sent ultimatums or were intending to take action with the Monroe Doctrine were false.

Regarding reports of organized attempts to colonize Japanese in Mexico, Mr. del Valle said:

"There is no such thing as Japanese colonization in Mexico. The talk of the program of the Japanese colonization amounts to nothing."

PUPIL OF AVIATION DIES IN EXPLOSION

German Student Caught Under Machine When It Falls to Ground—
Another Plunges into Canal.

Berlin, Aug. 4.—A young pupil named Broke died here today when he was killed by an explosion of the fuel tank of his airplane. The explosion occurred when the machine was in the air. The student was flying over the city of Berlin. The machine fell to the ground and exploded. The student was killed. Another student, who was also flying, plunged into the canal. The machine was damaged. The student was injured. The machine was damaged. The student was injured.

SLAYER OF BROTHER PUT TO DEATH TODAY

Antony W. Grace Dies in Electric Chair at Sing Sing Prison—
Brother Well Known
Wrestler.

Ossining, N. Y., Aug. 4.—Antony W. Grace, was put to death by electricity at Sing Sing prison early today as penalty for the murder of his brother, Jack, a well known wrestler. Grace's body was found hacked to pieces in the rooms of the Walden Social club at Walden, N. Y., last September. Suspicion at once was attached to the brother Antony who disappeared at the time of the tragedy after having suddenly married a widow at Walden. When arrested later Antony had in his possession much of the personal property of his dead brother. He was convicted by a jury at Middletown.

FREQUENT SHOOTING BY ARMED DEPUTIES CAUSES COMMOTION OF FORMOSA ISLAND

Calumet Situation Is Not Improved
By Persecution of Firing on Part
of Sentinels and Guards.

Calumet, Mich., Aug. 4.—Practically the entire strike zone in the copper district ended to rifle and revolver shooting this morning. There were more than the usual number of "shadow shots" by sentinels and an increased patrol force of armed deputies was blamed by troop commanders and union officials alike for an almost constant popping of revolvers that lasted from shortly after midnight until daylight. Despite the promiscuous firing no one was hit.

"The work of the deputies is an outrage," said Claude O. Taylor, president of the Michigan state federation of labor. "It is unconceivable that a great state should allow its national guard to be used as a curtain behind which armed thugs authorized through blanket commissions to bear arms may commit acts that ought of right to land their purporters in prison."

Additional union leaders arrived today in the person of Mr. and Mrs. Joseph Cannon of Los Angeles, who came from the scene of mine strikes in New York and New Jersey. With "Mother" Jones due here tomorrow and other unionists enroute, there was every indication that the westward movement of the labor union federation was rallying its forces for one of the most determined struggles in the union labor history.

The first attempt at resumption of actual mining occurred at "E" shaft of the Champlain mine. It ended in a fat failure when one man, and he a pump man, reported for work.

Okuma Makes Contribution.
A notable contribution to the discussion of the relation of the West to the East, opened up by the California and the agitation of has been made by Count Okuma, the "Grand Old Man of Japan," who declares that Japan's future success depends upon her development of foreign intercourse.

Count Okuma writes of this problem in a volume fresh from the press. The statesman constantly uses the word "taisei," meaning trend, tendency, current or movement. Dividing history into the ante-medieval, medieval and modern periods, he points out that in the former period oriental races overran Europe, while in the latter European races invaded the oriental world. This pulsation, he says, is today being reversed. The movement of races Count Okuma calls "taisei," or "tendency or history."

Three successive waves have swept Japan. The first period began with Oda Nobunago, when the Portuguese introduced Christianity and other European sought intercourse with Japan. The second was the Russian movement which began to be felt after one hundred and fifty years of seclusion, and the third reached its culmination with the coming of Commodore Perry from the United States.

The attitude of a country toward this world tendency decides its fate. The count says: "To follow the taisei is to rise, to oppose the taisei means destruction." This law, he declares holds in the material world, as a principle it prevades human history. "The course for a nation to pursue is to obey the world tendency, to resist it and oppose it is to invite destruction. It is this attitude that saved Japan from destruction. If Japan for any reason should assume an attitude of hostility and opposition to the world tendency, her doom would be sealed."

Count Okuma considers it a matter of good fortune that Japan took good advantage of the world tendency when the movement was felt pressing at her door. "The progress of Japan," he says, "is due to the fact that she has followed the world tendency, and has not opposed it."

Strides in Aviation.
Japan is making important strides in aviation. Recently a number of young military officers trained by the Army Aviation Corps made a series of inter-provincial flights, covering a distance of 60 miles, and qualified themselves as experts. The aviation corps has a spacious open ground at Tokorozawa, near Tokyo, where a group of student aviators is being trained by Captain Tokugawa. These military aviators make occasional sorties into the city of Tokyo, the people of which climb up to house tops to see the "man-birds" fly. The aeroplanes in use are Japanese biplanes, devised by Captain Tokugawa and a number of French machines. The naval aviators also have been active recently. They paid a surprise visit to Yokohama and Tokyo from the naval station at Yokosuka. The naval aviators made a series of flights, covering a distance of 130 miles in two hours and ten minutes. The naval aviators are now planning to exhibit their craft at the Tama sea resort, where they are now stationed.

JAPANESE FIGHTING WILD HEAD HUNTERS CAUSES COMMOTION OF FORMOSA ISLAND

Natives Have Refused to Submit to
Domination—Count Okuma
Writes on Racial
Problems.

Tokyo, Aug. 4.—Japan has opened a vigorous military campaign against the island of Formosa, better known as "head hunters," who have refused to submit to the domination of Japan. When Japan was ceded Formosa in 1895 at the conclusion of the war with China the "head hunters" came to Japan because of their custom of bringing human heads to all ceremonies, numbered about 150,000, but successive campaigns and peace overtures by the Japanese have not limited them to the Taroko tribe, the wildest of all, who inhabit the rugged and precipitous mountains near the eastern coast. The present Japanese force of subjugation comprises 3,000 men, made up of native troops and the police force of the island. It is divided into two columns and is in charge of General Sakuma, the Governor-General of Formosa.

The Taroko tribesmen came from the Malay Peninsula and are the oldest known inhabitants of Formosa. They practice a rude kind of agriculture, wear scarcely any clothing, and live in wood and bamboo huts on the heights of almost inaccessible mountains. They fight from the tops of trees, and the campaign against them will be exceedingly dangerous. The subjugation in the past has been largely carried on by constructing electrical charged wire fences, gradually extended into the savage district, until the conclusion of the head hunters was restricted to the mountains which must now be assailed. The Japanese hope to make the Taroko tribe out of those who are left at the end of the present expedition.

ESCAPES DROWNING BY RIDING MOOSE

Varsity Student Escapes Drowning
By Hanging to Bull Moose's
Horns—Carried Towards
Rapids.

International Falls, Minn., Aug. 4.—A thrilling escape from drowning in the Rainy river near Fort Francis, Ont., by catching hold of the antlers of a big bull moose which was swimming across the river was the experience yesterday of Clyde W. Buell, Minneapolis, a junior academic student at the state university. Buell is working at Fort Francis for a lumber company. He was out on a raft of logs. After striking a dam the raft was overturned and Buell, clinging to a single piece of timber, was carried down the river toward the rapids.

Buell had given up hope when he saw the moose with its head antlers swimming safely from the rapids. He let loose of the logs and grabbed one horn of the antler. He shifted himself to the animal's back and rode it to a shallow water. The moose fought hard, would sink beneath the water, but soon gave up and swam ashore.

SHOW OF PREJUDICE CHARGED DEMOCRATS

Former Representative Watson of Indiana Declines to Appear Before Senate Committee.

Washington, Aug. 4.—Charges that the democratic party in the lobby committee prejudiced the case made out by Martin M. Mulhill against the National Association of Manufacturers without hearing the other side were made today by a group of representatives James E. Watson of Indiana, who referred in a letter to the committee to a public statement by Chairman Overman and Senators Reed and Chandler, in which they had indicated that they had prejudiced the case.

"I must prefer he said to take my case to another court."

Robert McCarter attorney for the National Association of Manufacturers faced the committee with a vigorous objection to the same statement. Chairman Overman and Senator Reed declared there was nothing in the evidence which would justify an indication that they had prejudiced the case.

FIRE FIENDS BUSY IN MINNESOTA CITY

Organized Band of Robbers Raid Virginia, Minn., and Fire Two Stores
And Attempt Bank Robbery.

Virginia, Minn., Aug. 4.—Two fires breaking out simultaneously and a number of burglaries here Sunday in which the lives of a dozen persons were endangered gave rise to the belief that an organized gang of robbers and incendiaries had started a general conflagration in the hope of looting the city under cover of the excitement. The damage from the fire is estimated at about \$12,000. No trace has been found of the gang.

The first blaze started at a furniture store. The second floor was occupied as living apartments and all there had narrow escapes.

WISCONSIN ENVOY TO WEAR IMPRESSIVE STOVEPIPE HAT

Madison, Wis., Aug. 4.—Prof. Paul S. Revisch of the University of Wisconsin, appointed ambassador to China, and a new shining "top" hat with an inseparable companion in China, according to Kim Ho, a Wisconsin student who graduated from the University of Wisconsin in 1912 and is now in Honolulu. Mr. Ho believes that a tall, impressive "stovepipe" is as essential to an ambassador in China as a crown to a king or a gun to a soldier. He wrote to Louis P. Lochner, editor of the Wisconsin Alumni Magazine, asking for two pictures of Prof. Reisch: One in civilian clothes with head uncovered, and the other with the insignia of his post, the "top" hat. He wants the pictures for the English papers in Honolulu.

SWEEPING REDUCTION IN EXPRESS CHARGES

COMMERCE COMMISSION'S ORDER
MEANS BIG DECREASE IN
GROSS REVENUE OF
COMPANIES.

MAY SEEK LEGAL TEST

Firms Affected by Ruling May go to Courts to Protect Their Business—Parcel Post System a Factor in Case.

Washington, Aug. 4.—Reductions in express rates which will cost the companies fully twenty-six million dollars a year, approximately 15 percent of their gross revenue, were ordered by the interstate commerce commission today to become effective on or before October 15, 1913. Notable reforms in practices were also ordered.

The most important change prescribed by the order was the modification of the present graduated scale of parcel rates. One hundred pound rates for short distances either have been left unchanged or slightly reduced. For longer distances they have been lowered. For fifty pounds or less all rates practically have been reduced.

For packages more than four pounds going more than two hundred miles and less than two thousand the new express rates are generally lower than the parcel post rate; for more than 3,000 miles the rates are practically the same.

The report and order of the commission prepared by Commissioner John H. Marble, are a virtual affirmation of the findings of former Commissioner Franklin K. Lane new secretary of the interior.

By prescribing a so-called block system dividing the United States into 350 blocks averaging 2500 square miles as originally proposed by Mr. Lane nine hundred million different rates now published by express companies will be reduced to less than six hundred and fifty thousand and the interstate commerce commission believes that the system points the way to a solution of the existing maze of freight rates.

May Test Order.

The general impression in official quarters is that the express companies will attempt to test by legal means the constitutionality of the commission's order.

The requirement of the order of June 8, 1912, that a label shall be attached to each parcel is modified to the extent that in case of shipments of perishable property consisting of two or more packages the label need be attached to only one package.

The express companies had filed statements indicating that the losses of revenue under the proposed rates would be irreparable and arguing strenuously that the establishment of a parcel post had deprived them of quite 30 percent of the revenue they formerly received from parcels of eleven pounds or less. They contend that the express business could not survive the loss from both sources.

Interprets Attitude.
"This is equivalent to saying," comments Commissioner Marble in his report, "that inasmuch as ships have been given the convenience and economy of the parcels post, the express carriers must on that account be allowed to charge higher rates than otherwise would be reasonable. That is to say the companies are entitled on to take from the shippers of the country all the benefits that they receive from the parcels post and give to the express companies in the face of higher rates upon the remaining business."

The new system of rates is not only a simplification of existing rates structures and methods but in the opinion of rate experts lays the foundation for new practices in all rates provisions.

WHITE SLAVE VICTIM ARRESTED AT DULUTH

Eighteen-Year-Old Girl Enticed Away By White Slave Who is Arrested With Girl.

Duluth, Aug. 4.—Following the arrest yesterday of Anna Boone, 18 years old, said to be from Arlington, Wis., the police are endeavoring to unravel one of the strangest cases that has ever come to their attention and think from investigations so far made that a case of white slavery or kidnapping is involved.

Margaret Forgy, deputy probation officer, found the Boone girl wandering on the high boulevard scantily clothed and in distress. She questioned her and notified the police who arrested the wanderer.

The police captain, and a clerk from the hotel were taking the girl to the hotel to locate the room when a man giving the name of Birchard stepped up and spoke to the girl. He was arrested on the spot. Birchard said he and the girl had come here to take up land and contemplated getting married. Chief Troyer has wired the girl's parents at Arlington.

SCHOOL OF COOKING OPENS NEXT MONDAY

MISS FLORENCE M. PEET WILL GIVE COURSE TO READERS OF GAZETTE.

IS CULINARY EXPERT

Lectures and Demonstrations Begin at Assembly Hall at 2:30 O'clock.—Information As to Terms.

Negotiations have been closed for bringing Florence M. Peet, a culinary expert to Janesville, to give a series of scientific though extremely practical cooking lecture-demonstrations at a cooking school, which the Gazette opens next Monday, August 11, at 2:30 in the assembly hall.

Miss Peet's fame has grown steadily in the past few years, beginning with local reputation as the best cook in the country to her present fame as a lecturer upon Domestic Science topics. Miss Peet is accompanied with a happy combination of experiences which have served to place her in her present class. She not only has the "book learning," but practical experience. Besides this Miss Peet is a woman who invariably wins women to her through her charming personality and her same ideas about wholesome food and grocery conservation. She is an adept at fancy dishes, but the other hand she is no less noted for the many valiant battles with the high-cost-of-living which she has waged. She has done much towards the annihilation of this twentieth century plague.

Miss Peet is going to bring all of her pet theories, practices and recipes to Janesville. Some of the special dishes which she will prepare are as follows: Cakes, baked ice cream, salads, puddings, pastries, doughnuts, etc.

Miss Peet has a certain little knack of preparing these and other foods that is sure to please Janesville housewives, the same as women in other cities have been delighted with Miss Peet's originality. Miss Peet will prepare along with the menu proper some speciality, one day it will be a fancy cake. At another meeting she will prepare a speciality between the plain, put and flake pastry. Another meeting will have as its main feature the preparation of the new kind of doughnuts—"Doughnuts-a-la-Peet." She also promises her famous baked ice cream.

Recipes to be Printed.
Each day of Miss Peet's Janesville engagement, her favorite recipes will be printed in the Gazette exclusively, and it is possible that cities have been delighted with Miss Peet's originality. Miss Peet will prepare along with the menu proper some speciality, one day it will be a fancy cake. At another meeting she will prepare a speciality between the plain, put and flake pastry. Another meeting will have as its main feature the preparation of the new kind of doughnuts—"Doughnuts-a-la-Peet." She also promises her famous baked ice cream.

WHITEHEAD DELIVERS ADDRESS UPON PERRY

took Part in Opening Program of Perry's Victory Celebration at Milwaukee Yesterday.

"Perry's Personal Character" was the subject of an address delivered by the Hon. J. M. Whitehead of this city at the Perry's Victory celebration, which was opened at the Auditorium in Milwaukee yesterday. An abstract of his speech is as follows:

"Perry's Personal Character" was the subject of the address by the Hon. John M. Whitehead from Janesville, Wis.

Oliver Hazard Perry was born in South Kingston, R. I. on Aug. 23, 1785, said Mr. Whitehead in commenting briefly on the life of the commodore. His father was Christopher Raymond Perry, a naval officer. Sarah Alexander was his mother. The Perry family was of Quaker stock. There were five sons and three daughters in the family. The sons all became naval officers and the daughters the wives of naval officers. Oliver was the oldest in the family.

"The mother educated her boys for deeds of valor, but did not forget their religious training. It was said that the mother of Oliver Hazard Perry was really entitled to the credit for her son's victory on Lake Erie. Perry, himself, attributed his victory to the pleasure of the almighty. 'The prayers of my wife prevailed and saved me,' said Perry after the battle.

"Oliver Hazard Perry carried his right to the hero title on Lake Erie. With nine vessels, carrying fifty-four guns and 192 officers and men. Perry fought six vessels, with sixty-three guns and 502 officers and men. He lost four-fifths of the crew of his flagship and finally won a complete victory, which he announced in the brief dispatch: 'We have met the enemy and they are ours—two ships, two brigs, one schooner and one sloop.'

"Not long before his death Perry said: 'Few persons have greater reasons for wanting to live than I, but I am willing to go, for the debt of nature must be paid.'

"Perry was a man of sane judgment," continued Mr. Whitehead. "He had a strict idea of duty, was kind hearted and had great faith in the almighty."

"He served on several of the principal ships of his day. 'The commodore was tall, well proportioned, symmetrical of body and graceful. He was known by his men as being every inch a man.'

"He died of yellow fever in Trinidad on Aug. 23, 1819, and was buried at Newport, R. I., where there is a bronze statue to his memory."

MILTON JUNCTION

Milton Junction, Aug. 4.—Miss Nina Coon has returned to Chicago after a month's visit with her parents.

BAKER WINS HARRIS CUP FROM SCHALLER

Harris Trophy Goes to Fred Baker, Who Defeats Al Schaller.—Morgan Cup Next to Play For.

Fred Baker has settled the dispute in the playoff for the Harris Trophy Cup, by defeating Al Schaller in the final match by a large score. Mr. Baker played in fine form and out-classed his opponent at all stages. He finished seven up and six to play. Schaller had been playing a much faster game all through the tournament than had Baker, but in this match he failed to hit his stride, and Baker played at his best.

This final match closes a most successful tournament. The cup was put up by Arthur Harris and the winner is entitled to keep it as his. It is a beautiful trophy and Mr. Baker feels very proud to hold it in his possession.

The annual Morgan Trophy, presented by Hiram Morgan of the Beloit Country Club, will be the next cup to be played for. This cup is at present being held by Al Schaller, winner of last year's Morgan Cup Tournament. E. C. Baumann stated this morning that the qualifying rounds and score will remain open until August Eleventh. All entries must be in by that time.

E. C. Baumann and Al Schaller left this morning for Kenosha, where they will enter the state tourney of golfers. Thirty-two is required to qualify this year, which is a higher standard than was ever set before. The tournament will last through Saturday.

MISS VAN BEYNUM BECOMES A BRIDE

Marriage of Miss Gertrude Van Beynum and William Sullivan Solomized This Morning.

Miss Gertrude Van Beynum and William Sullivan were united in marriage at nine o'clock this morning at St. Mary's parsonage, the Rev. Father W. A. Goshol officiating. Following the ceremony a wedding breakfast was served at the home of the bride's parents, Mr. and Mrs. J. V. Van Beynum, on Ruger avenue. Mr. and Mrs. Sullivan left this morning for a wedding journey and will be at home to their friends after Oct. 1, at 1015 Milwaukee avenue. Both the bride and groom have a large circle of friends in this city. Mr. Sullivan is an excellent host and a federal government as internal revenue collector.

Mr. and Mrs. Clarence Van Beynum of Chicago, and O. T. Sullivan of Waukegan were among the guests at the wedding.

Denning-Knipshiel.

Miss Katherine Denning and John Knipshiel were united in marriage at eleven-thirty this morning at the St. Patrick church. The Rev. Father Mahoney paid the wedding vows.

The bride was attended by her sister, Miss Sarah Denning. Walter Knipshiel, of Beloit, brother of the groom, was groom's attendant. After a seven-course wedding breakfast was served and Mr. and Mrs. Knipshiel left on the noon train for Milwaukee where they will spend the remainder of the week. They are to make their home in Beloit.

INCOME TAX BOARD RESUMES SESSIONS

Holding Meetings at Court House Following Adjournment.—Public Not Admitted.

After an adjournment of several days the County Board of Review for District No. 4 resumed its sessions in the circuit court room this morning. M. P. Richardson is chairman of the board. The other members being Edwin G. Field and George V. Blanchard. County Clerk Loc is acting secretary. Only those who have business before the committee are admitted to the hearings. All those who have complaints to file against their assessments of income and can present evidence to show why their assessments should be changed are asked to come before the committee and present their cases. The committee will probably be in session for several days.

FAST HORSES ENTERED IN KALAMAZOO RACES

[SPECIAL TO THE GAZETTE.]
Kalamazoo, Mich., Aug. 4.—All the best known stables in the country are at Recreation park for the five-day Grand Circuit race meeting, which had its opening this afternoon. The track is in excellent condition and with favorable weather the meeting promises to be highly successful. The feature of the week, the \$12,000 Paper Mills stake, for 2:14 class trotters, will be raced on Wednesday.

APRICOTS GROW ON FARM NEAR CITY

A. G. Russell, Successfully Harvests Crop From Two Trees This Summer.

Rock county has been placed in the banana belt and other tropical climes by A. G. Russell, who resides four miles from the city, near the county farm. He has two trees some 15 years old, from which he has harvested a goodly crop of apricots that sets a new mark for southern Wisconsin. The trees have blossomed several years in succession and a few of the fruit have escaped the climatic conditions and matured, but this summer is the first time that a fair sized crop has been harvested. They are of a most delicate flavor and as sweet as honey.

EMPLOYEES ARE GIVEN SIGNAL EXAMINATION

Northwestern Switchmen and Brakemen Given Examination on Saturday.—Have Special Car.

All switchmen and brakemen on the Chicago & Northwestern railroad employed in Janesville were given their tests Saturday as to the various rules, signals and signs which govern their work. The Central Safety Committee of Chicago & Northwestern railroad started these examinations about a year ago and the company have fitted a special car with an instructor and examiner, and to every large point where the road employs a large number of men in the braking and switching capacity these cars are taken and all the men are examined to see if they are thoroughly acquainted with all the rules and signals and are competent to hold their positions.

The car was brought to this city on Saturday and left early this morning. It is reported that the Janesville employees were very successful in the examination.

REST TENT PROVES AN INVITING PLACE

Many Chautauqua Visitors Avail Themselves of Accommodation Offered by Suffrage Society.

The Woman's Suffrage association of Rock county has been making a very successful and popular rest tent at the chautauqua for the benefit of patrons of the course. It is a large tent, well furnished with chairs and tables, and supplied with writing facilities and reading matter. The outside of the tent is decorated with an enormous "Votes for Women" banner and inside the tent are hung a number of the posters made by Elizabeth of Milwaukee, which played a prominent part in the recent suffrage campaign. Mrs. Peckham used them for display in the windows of a rest room in Milwaukee, where hundreds of people paused daily to see Mrs. Peckham's latest poster. Local suffragists are indebted to her generosity for securing the present exhibit. They are so pretty and clever that they are well worth a special trip to the chautauqua grounds to see.

OBITUARY

Mrs. Martin Johnson.
Sunday, Aug. 3, at Cambridge, Wis., at the home of her daughter, Mrs. T. C. Slagg, Mrs. Martin Johnson died, aged eighty-four years. Born in Norway, she came to this country with her husband when a young woman, and for many years made Janesville her home. She is survived by three daughters: Mrs. M. C. Slagg, who died several years ago. The body will be brought overland from Cambridge Tuesday, and brief services will be held at the grave at 3:30.

Mrs. Amelia C. Wells.
Mrs. Amelia C. Wells, 821 South Jackson street, passed away at 5:30 o'clock this morning at her home. She had been an invalid for the last fourteen years. Mrs. Wells was born in Potteryville, Pa., August 11, 1867, making her forty-six years of age at the time of her death. She had lived in Janesville for four years. Surviving her and mourning her loss are her husband, William Wells, a daughter, Miss Grace Wells, a sister, Mrs. Susan Forester of this city, and three brothers: Amos, Willis and Adrian Lovelace, all of Rockford. The remains will be taken to Earlwell at ten o'clock Wednesday after a brief prayer at the house, and services will be held at the Allen Grove church in the afternoon. Burial will be made at Allen's Grove.

possible. Swimming is an exercise that requires plenty of good fresh air. It is a great lung developer, for the respiratory organs are worked to their fullest capacity during the act of swimming. In view of the increased amount of work required of the lungs, it follows that there is bound to be a great amount of waste material in the shape of gas and used air which must escape from the body somewhere. The swimmer's task is to get rid of this used air or he will soon become exhausted. For the retaining in the lungs of the used air is really what causes exhaustion in swimmers quite as much as the lack of fresh air.

attitude. But if they aim merely at improving men's conduct toward women, there are many other ways in which this could be attained without taking such steps as are at present contemplated.

With an impressive service in which six clergymen took part, the Rev. T. C. Thorson was yesterday ordained a minister in the Norwegian church at Edgerton. The Rev. J. Nordby of Lee, Illinois, received the ordination sermon. He was assisted in the service by the Rev. W. A. Johnson of Capron, Illinois, who resigned as pastor of the local church last May but has continued to fill the pulpit since that time, and by the Rev. J. Lindqvist of Edgerton, C. P. Doving and J. Birkenhead of Chicago, and J. C. Krens of Beloit.

The Rev. T. C. Thorson was born in Norway, emigrating to this country with his parents at an early age. He comes to Janesville from New London, Minnesota, and graduated from Luther Seminary, the Synod's theological school in May. His first appearance in the local pulpit was on the evening of Sunday, June 8, when he preached a sermon in the English language. In addition to the Janesville church, he will have charge of the Rock Run church at Durand, Illinois.

The ordination service was the first ever conducted in the Janesville Norwegian church and awakened great interest, the building being filled with worshippers. All the services were in the Norwegian language. The Right Reverend Nordby, in his sermon spoke eloquently of the calling of the ministry, its opportunities for service, its trials, and its triumphs.

"We are all," he said, "as Christians, servants of God, but the pastor is a servant in an especial manner and for a special purpose. To him are entrusted the solemn mysteries of the sacraments, the preaching of the gospel, and the holy offices of the church for which he is consecrated."

ROYAL NEIGHBORS INVITED TO BELOIT WOMAN'S HOME
The Royal Neighbors of Crystal Camp No. 132, R. N. A., are invited by Mrs. Minnie Ellis of Beloit, 723 Parker street, to spend Tuesday afternoon at her home. All going will take one o'clock car and go prepared to stay the evening and visit the Beloit Camp.

BIG REWARD OUT FOR CAPTURE OF BEER THIEVES
The Wells Fargo Express company have issued a reward of fifty dollars for any person identifying the party who stole the keg of beer from an express truck at the St. Paul station on last Friday night. The keg was not found in the rear of the depot as was at first stated, but was found upside down in the conductors room adjoining the ticket office and operators room. The fact that it was taken between seven and eight o'clock in the evening instead of six-thirty, perhaps leads to some suspicion which may be uncovered.

STARTS TO DRIVE AUTO ACROSS FOURTH WARD PARK
An automobile with five or six passengers and driven by a young woman was partially wrecked yesterday afternoon when an attempt was made to drive the machine across the Fourth Ward Park. The party was traveling down the street when the steering gear evidently refused to respond and the car crashed into the curb of the park. No one was injured.

PRACTICAL SWIMMING LESSONS
INSTRUCTION AND POSES BY
TOM WHITAKER, SWIMMING INSTRUCTOR, M.A.C. ST. LOUIS
HOW TO BREATHE CORRECTLY.

THE secret of easy and graceful swimming is attained by the proper method of breathing. You have no doubt seen on your visits to the chautauqua grounds to see.

THE answer to your question is simple. The swimmer is breathing the correct and only way to breathe while swimming; namely rhythmically, and before you can become a really good swimmer and acquire the complicated "trudgeon" and "crawl" strokes, you, too, must learn to breathe this way. This is a method of breathing by means of which the swimmer is enabled to keep his head under the water three-quarters of the time, and a doing so he keeps his body on a level plane. It is a fact that as soon as the head is raised in swimming the swimmer has a tendency to sink. This is certainly the case where the swimmer is trying to keep his head from sinking to a foot out of the water. How many times have you seen swimmers puffing and blowing, eyes bulging, and acting as if every breath was to be their last one? This is especially true of the swimmer who happens to submerge his head and coming to the surface tries to exhale and inhale at the same time, which is impossible. Swimming is an exercise that requires plenty of good fresh air. It is a great lung developer, for the respiratory organs are worked to their fullest capacity during the act of swimming. In view of the increased amount of work required of the lungs, it follows that there is bound to be a great amount of waste material in the shape of gas and used air which must escape from the body somewhere. The swimmer's task is to get rid of this used air or he will soon become exhausted. For the retaining in the lungs of the used air is really what causes exhaustion in swimmers quite as much as the lack of fresh air.

The next time you are in the water try and breathe in the following manner to overcome this bad effect: Get in water until the nose is under the surface. Keep the mouth shut and exhale steadily and forcibly through the nose, making sure to keep exhaling all the time the nose is under the water. After exhaling for about two seconds, raise the head out of the water and inhale through the mouth quickly. Do not try to inhale while the head is under the surface.

This method of breathing should be acquired after a few attempts, and after you have mastered it, swimming will take on new delights for you, and you will find it to be the "open sesame" to all the up-to-date strokes, for in swimming any of them it is merely necessary to exhale through the nose while the head is under water, and turning the head to the side, open the mouth and inhale.

THE BLOWHARD.

"I'll mow 'em down, I'll get their goats. They'll never get a smell." Thus did the chesty bushier blow and all who heard could tell he was an awful blowhard. And in fact they proved it, too: "I was in the third, with bases packed. How very hard he blew!"

Chick Gandil, with Griff's Washington bunch, is said to pound the ball in his best form when he is real sore over something or other. Gandil sort of takes it out on the ball. If feeling particularly glum and bellicose, Gandil is pretty sure of a hit when he walks to the plate, the only difficulty being that a nice hit will sometimes bring him in such a happy frame of mind that he won't be able to get another rest of the game. If Griffith was wise he'd either hire someone or else take pains himself to keep Gandil stirred up and out of sorts and Chick would certainly make Joe Jackson and Ty Cobb work hard if he did.

Dr. J. W. Holland of the Carnegie Museum, Pittsburgh, who has asked Honus Wagner for his baseball togs

and outfit when he retires from the game, is something of a comical person. Holland explains to a newspaper man recently that one reason why they wanted Wagner's glove and things to put on exhibition was because the inscription on the seal of the institution is "Honus Alii Artes."

Mugsy McGraw has the best group of pilltossers this season that he has had for many a day, perhaps the best he ever had. If there is anything at all in the dope, he has the combination that can't be beat. Pitching, batting, fielding, and speed, he has them all. Think this over. Out of the last fifty games played the Giants have won forty-two, a clip that would knock the spots out of any pennant race. And the reason seems to be that Mugsy has all the cream of last season's team and some more swell stuff. Consider Burns, the marvelous new outfielder, and Demaree, the pitching phenomenon. Added to which has been a little good luck or good fortune. Fletcher is pounding the pellet as he never did before and Snodgrass is playing and batting at a marvelous pace. Larry Doyle and Chief Meyers, of course, can always be counted on to rap, the spheroid unmercifully.

Well, well! "Old Fox" Griffith has landed another portwheeler. Griff said not long ago that he wished he had a who's team of southpaws and he seems to be going after them. The new one is Harry Hegedeth from the Virginia league, and is said to have cost \$3,000. We hope he can pitch better than that, considering the price paid for some lemons.

CARDS WHITEWASH FOREST CITY NINE IN GREAT VICTORY

Rickard Highlands Prove Easy For Foreman, Who Whiffs Fifteen and Allows But 3 Hits—

Score 8 to 0.

Those Cards sure did things up yesterday, and they used all of the whitewash in the book. At the end of the thrashing, the score read like an airtight game for the first three innings, but it is sorry to relate what happened after the Cards' bats were well acquainted with the outcome of yesterday's contest, and he credits the Cards with the excellent display.

Manager, Bright will go with all of the other Rockford games, as he wishes to make a clean sweep of the three innings the game went on. It was a pitch-out until the Cards' bats were well acquainted with the outcome of yesterday's contest, and he credits the Cards with the excellent display.

Two more runs in the fifth. Crandall led with a hit, and received the ball squarely on the breast and took her met a straight, for two bases, scoring Crandall. Her made out at third and Stewart went to left.

Again two more runs in the sixth. Berger obtained a walk, followed by one of Nehr's long hits, which went Crandall. He gave out to second, came up for his second walk. Ryan Berger, Sullivan smacked out a clean drive to center, scoring Crandall. Ryan made out at third on attempted steal.

The Cards closed the eighth with one tally. Three more singles placed Nehr over the plate, with a total of thirteen hits for the Cards in the game.

Rockford went out in two, in fashion during the latter two, Crandall walked on in the 3d. Crandall was forced to stay at first with no chance to steal.

The lineup and score by innings as follows:

Summary of game: Two bases hit by Nehr, Berger, Nehr, Porter, Stewart, by Crandall, 15; by Snyder, 3; by Johnstone, 1. Bases on balls 0. Crandall, 2; off Johnstone, 2. Hit by pitcher, by Johnstone, Ryan, by Snyder, 2. Hit by pitcher, by Snyder, 2. Passed ball, Ledin 1. Hits off Snyder, seven in five innings, off Johnstone, 6 in three innings. Time of game, one hour and forty minutes. Umpires, Koch and Nelson. Attendance, 600.

Notes of the Game.

Rockford's regular pitcher, Jack Nelson, was at the game. He was expected to pitch, but he scalped his right hand Friday, and so to make it interesting for him, he was asked to assist Koch in umpiring.

Snyder is another Mordecai Brown. He has but four fingers at all on his pitching hand, and one of these fingers is not in the best of condition. That made little difference to the Cards.

Porter played his first game for the Cards in a long time. He has been around yet, but he played a pretty game handling several hard flies.

Crandall won his fifth game for the Cards. Eighteen hits off him in these five games. Pretty good pitching would judge. Total number of strikeouts in the five games is exactly fifty-eight, and he is going to pitch some more.

The hitting was evenly divided, every man on the team securing at least one hit. Ryan, Sullivan, Nehr and Crandall contributed two bingles each.

Fourth Ward Stars.

The Edgerton Tigers proved too strong for the Fourth Ward Stars Sunday afternoon, at their contest at Dunn's pasture and the Janesville nine were downed after nine innings of bitterly fought baseball. The score was 3 to 1.

LeFere pitched for the local nine and was the star of the game. Spohn was the receiving end of the battery. The tail grass of the diamond made fast fielding impossible and consequently there were many Cincinnati

ENTRY LISTS CLOSE FOR COMING RACES AT THE LOCAL TRACKS

Indications Point to Best Racing Seen in Janesville in Many Years—

Many Visitors Expected.

Officially the entries for the coming three days' race meet to be held at the Park association tracks, August 13, 14 and 15th, have closed, and Secretary Putnam is busy preparing the list of entries for publication. Present indications are that some of the fastest strings of horses now working the various circuits will be entered here, and that it will be the banner race meet for the local tracks.

Horses Arrive.

Already three of the best of the Lindeaur string from Kaukauna have arrived at the track and are being conditioned for the Wisconsin Grand Circuit races. The four best horses in the Pierce stable, from Loganport, Indiana, arrived this afternoon and will be given their last finishing training for the rest of the season's racing. Other strings are expected in during the present week as well

as some of the horses that did their spring workouts here.

Opens Here.

The Wisconsin Grand Circuit opens its racing season in Janesville this year. Then follows four days' racing at Evansville, 19th, 20th, 21st and 22d. Next comes the double-header for the circuit, at Beloit, the 26th to 29th, and at Portage on the same dates. The first week in September sees the strings moved to Jefferson, and the second week in September they go to Monroe, next to Madison the third week in September.

Notables Expected.

Among the prominent horsemen expected to attend the meet here is W. H. Knight, secretary of the American Trotting association, who has written Secretary Putnam he will be here for the three days. This big association is much interested in the newly formed Wisconsin circuit and will doubtless be most useful in securing good horses for coming meets. Other prominent men in the world of horses will also be present and reserving the various circuits will be entered here, and that it will be the banner race meet for the local tracks.

base hits made during the game. The Edgerton team outslugged the locals throughout the contest and their battery, Schumacher and Galt, were in luck to hold the Stars to one run.

DEFEAT JINX STILL FOLLOWS WHITE SOX

Janesville White Sox Loose Third Game This Season by Fourteen to Ten—Played Beloit Athletics.

Inability to hit when men were on the circuit and sand lot fielding were responsible for the defeat of the Janesville White Sox against the Beloit athletics Sunday afternoon at Yost's Park by a ten to fourteen score. Both teams played "rotten" ball and the Sox showed that they have not as yet come out of their slump.

The local team was badly crippled by the lack of a first class twirler as Mullen was unable to pitch and Jeff Britt, the diminutive short stop for the Sox, started bravely to quell the Beloit men. His straight ones had no mysteries for the Athletics and they pounded the ball to all uncovers parts of the lot. Four scores in the first inning, two in the second, gave Britt's downfall and Connell, who fooled the Beloiters considerably and if he had been given the support that the Sox are capable of giving their pitcher, the game would have been clinched. The error bug again got into the Sox infield and it took six innings to work it out of their systems. After the Beloit team had marked their lead up to fourteen, the locals began putting the ban on the run column and got busy

and nailed the ball for good clean hits, and these, with the Beloit catcher's inability to hold the base runners, made the game at least close. Connell was the heavy hitter for the locals, spanking the ball for four safe ones two of them being good for extra sacks. Every inning the Sox put men on bases and the majority of times they were packed to the brim, but the batters were unable to hit the floaters of the opposing pitchers beyond he infield. In the ninth inning the Sox made a desperate attempt to tie the score and overcome a lead of seven runs and their chances were budding success when a bit of bad base running stopped their chances. Hits by Cronin, Porter and Connell allowed three runs to score, but the Sox's eleventh hour rally was hopeless and the Sox finished the game four runs behind their opponents.

Radical changes will have to be made in the Sox team before they can hope to play the game that they have in the past. The infield was woefully weak, missing easy "pop" fouls and blowing easy assists. Cronin was the shining star in the defense as he pulled down four flies and cut off two runs at the plate by long throws. The Sox are in bad shape and Cart Stickey is forced to play in the outfield because of injuries and the Sox lost their star infield man when "Jimmie" Stewart was drafted to the Cardinals.

White Sox—French c. Britt, and Connell, ss; Cronin and Britt, p; Stickey and Kennedy, 1b; Belton, 2b; L. Stewart 3b; Cronin, Stickey, Kennedy and Porter, fielders.

MR. McADOO.

New York is much disturbed by the action of the Wilson administration relative to financial matters. They severely criticize the decision of Secretary of the Treasury McAdoo to deposit with southern and western banks from \$25,000,000 to \$50,000,000 of government funds, and also in his offer to accept commercial paper as security for these deposits. The Secretary of the Treasury is probably well within his legal rights. The law on this subject is broad, and the secretary does not have to state the reasons which prompt his action. But there can be little doubt that this abrupt increase in the supply of currency and the creation of a new precedent without any accompanying statement of the causes which impelled it, is not likely to promote that confidence between the treasury department and banking interests which is essential to proper conduct of the country's finances. New York bankers who have for months been applying the brakes to the credit situation may be pardoned if they ask whether the secretary of the treasury has turned from talking politics to playing politics, and whether one of the prime reasons for his action is a desire to relieve the new administration from the chagrin of seeing government obligations below par for the first time since their issuance.

EFFICIENCY IN HOUSE-KEEPING.

The cry for greater efficiency in the office and factory has been taken up by progressive housekeepers who seek greater efficiency in their house-keeping and cooking. And just as experts in office and factory management point the way to better and more economical work, so the modern housewife has welcomed the advice of domestic science experts. Knowing that the women of Janesville are ever alert for such expert information as will make them able to improve even their present high standard as home-makers, The Gazette conceived the idea of conducting a free course in housekeeping and domestic science with the best expert to be had as instructor and demonstrator.

We believe that in the securing of Miss Peet we have the woman best qualified to do the work which we have in mind. Miss Peet is a lecturer and demonstrator par excellence on all subjects pertaining to domestic science.

We are confident, therefore, that Miss Peet's talks and recipes will arouse the greatest interest and enthusiasm and that every woman who attends the first session next Monday, August 11, at 2-3-4, in the Assembly hall, will not fail to be present every day for the rest of the week.

TORIES TO THE LAST.

In Great Britain and Ireland one of the most infamous wrongs entrenched by long usage and the sanction of the laws is the system of plural voting for members of parliament.

When a new house of commons is to be chosen the elections are strung along for about a week. In a country of no great size it is easy for a man to go from one district to another and then on to a third, in time to vote in as many places as he is entitled to a ballot. And he is given that privilege wherever he has a residence. If he owns and occupies, at some time during the year, four or five houses in four or five different

parliamentary districts, or divisions as they are called in England, he can vote for a candidate for the house of commons in every one of them.

The effect, of course, is to give a rich man several times the power of a poor man in electing the national parliament or congress. It is a suffrage based upon property, and the departure from a standard such as Americans have always been familiar with is so wide that it cannot be defended by any believer in the equality of all men at the polls. It is an abuse which daily contradicts the oft-repeated assertion that Great Britain is really more democratic than the United States in its form of government.

Now an effort is being made to abolish this gross injustice of plural voting. The house of commons has passed a bill for that purpose, but the house of lords, true to its Tory traditions, rejected this reform measure by the overwhelming majority of 166 to 42. In the end, the stand of the hereditary branch of parliament can avail nothing more than delay but it will make class feeling run higher than ever in England and breed trouble in the years to come.

WISE ACTION.

Of course every citizen of Janesville wants the streets improved and the work done properly, but every lover of fair play does not like to see an injustice imposed upon an individual property-owner because the conformation of parcels of land is far above the level surveyed for the proposed road. In the case of the proposed paving of Division street this fact came to public attention and the reduction of the cost to the property owned by E. B. Connors, made by the board of public works, is gratifying, although the reason for paving this one block with brick is still obvious. However it is in line with progress and should not be too bitterly opposed.

Ohio strikers declared an armistice to attend a deputy sheriff's funeral. Without these little amenities war would be even more horrible.

The clergyman who believes it would be better for women to dress in nothing more than beads of perspiration doesn't claim it's anything more than a belief.

It's easy to understand why Secretary of Labor Wilson wants a touring car and an electric runabout, but what does he want of a truck?

In their demonstrations in behalf of Mrs. Young, the women of Chicago should not overlook the efficacy of the hunger strike.

Anthony Comstock threatens to suppress young Mr. Rockefeller's vice report. The young man may yet be come truly popular.

A show girl who married a football hero now names a chorus girl as correspondent. Could anything be more logical?

Socialists advise German women to refuse to bring citizens into the world. But is the birth strike aimed at Germany or the United States?

Still, Colonel Mulhall's nervous breakdown hung off two weeks longer than William Rockefeller's.

SPUR-MOMENT

The Diary of a Bonehead. Well, it is all over and the last ice cream socialist has gone home. It is a mystery, a mystery, why the ladies Aid picked on our place for their lawn social, but they did, and as soon as they decided on our lawn, we were helpless.

The next thing anyone suggests a lawn social of me, I am straightway going to plow the lawn and plant corn.

The social was given for the benefit of the heathen of Timbuctoo. I believe the proceeds are to buy suspenders for the heathen who, by the way, have nothing to fasten suspenders to. These particular heathens go about clad in a G. string and an optimistic smile. The rich heathen add strings of beads and a plug hat. But it was time for a lawn social and any excuse was good enough.

A pleasant time was "had" by all of the guests, but we got stung and the heathen got \$2.35.

There were six dozen Chinese lanterns, which had been strung by husbands of the ladies. What a bonanza my tools and carried half of them home absent-mindedly. One man took my step-ladder home. Probably he shoved it into his vest pocket like one does a borrowed pencil and promptly forgot all about it. The lanterns caught fire one after another. Those that hung near the house set fire to the house. Five times this happened. Three times I put the fire out with the garden hose and twice I called the department. A village fire department never does anything by halves. When they had finished the first time they had soaked all of the interior effects of our more or less ornate home with a two-inch stream and the second time they came they soaked the congregation out on the lawn.

The committee had furnished two gallons of ice cream to feed about three hundred persons and along about nine o'clock in the evening the dishes of ice cream held about a teaspoonful each and then there was some left for the garden. The man and his guitar quartet that had labored all evening on the side porch with more diligence than respect for the finer sensibilities of the audience.

While the social was in progress burglars went through the second floor of the house and took my pearl shirt studs. I don't know how the burglars ever found them. I had been hunting for them for two years but had never been able to locate more than one at a time.

There wasn't a whole piece of crockery left in the house at ten o'clock. The police had to stop three fights between four parents of irrepressible youngsters and Mrs. Jones' little boy got his head stuck in the freezer of the garden hose and I had to come and cut it off from him.

We don't know how much the ice cream social cost us and we would rather not know.

Personally I would be in favor of sending the ice cream direct to the heathen abroad instead of retailing

it to the heathen here at home. Some times I wonder how we have the right to call those poor innocent foreigners heathens, anyhow. They never held an orgy as heathenish as an ice cream social on the lawn of an innocent bystander.

Heart to Heart Talks

By JAMES A. EDGERTON

THE OPTIMIST.

If we are looking for good, we can generally find it. The universe itself is good. All we need to discover that fact is to relate ourselves to it in the right way.

Pessimism is usually a case of ingrowing egotism.

The world has not treated us in the way we imagine we should be treated; hence we take a dyspeptic view of things generally.

For the most part pessimism is self advertised failure.

When we think everything and everybody else is wrong people will conclude that we are wrong, and in so doing they will hit the sore spot.

I know a man who is always predicting dire calamities that never happen. He is a failure.

The same man is forever talking of the things he once did.

I know another man who lets the things he is doing now speak for themselves.

He is a success.

He is also an optimist.

There are dire things happening to the world—earthquakes, fires, floods and disasters—but there are so many optimists that they repair the injury and build better than before.

San Francisco is a greater city than she was when a ship in the earth's crust laid her low.

I have no doubt that the many cities that recently suffered from cyclone and flood will be better five years hence than before the elements struck them. They are filled with American optimists, who have the will that triumphs over accident.

Whether or not optimism is always justified, it generally justifies itself. It helps to make the good in which it believes.

Moreover, the optimist escapes a whole flock of forebodings about imaginary ills.

SUMMER DEVELOPMENTS PUSH NEW CIRCLE OF PEOPLE INTO CENTER OF LIMELIGHT FOCUS IN WASHINGTON

At top—Dr. A. D. Melvin, James E. Watson, Senator G. S. Cordova. At bottom—Mrs. James Hamilton Lewis, Oliver P. Newman.

Oliver P. Newman, the newspaper man appointed commissioner in Washington, receives a great deal of attention because of the fight politicians of the district are making against him. Dr. A. D. Melvin, chief of the bureau of animal industry, is going to Argentina to investigate slaughter house conditions. Senator G. S. Cordova, Ecuador minister, is the latest addition to the diplomatic corps. James E. Watson has been vindicated by Mulhall's charges previously made. Mrs. James Hamilton Lewis is the wife of the most talked about senator.

YOU Will Never Save

If you put it off until your income is larger than your fancied needs. Take your own case. Your salary is—say \$15 a week. You are saving nothing now because you "need all your income for living expense." If your income were out to \$12 a week you would manage somehow to live in that amount. Figure that you owe yourself something every week and put it into a **FIRST NATIONAL SAVINGS BOOK.**

BRIEF LOCAL NEWS.

Are on Hike: Mr. and Mrs. Arthur Lucht, who reside on 402 Center avenue, left Sunday morning at 4 o'clock on a long hike. They will walk as far as Port Atkinson, and perhaps from there they will journey to Waterville. Mrs. Lucht was formerly Miss Caroline Jordan of this city.

Left on Outing: Eight Janesville young ladies left this morning for Lake Waubesa, where they will spend a few days camping. Those who went were: the Misses Margaret Douma, Elizabeth Madden, Mary Pope, Anna Sullivan, Mayne Dulin, Julia Connors, Miss Soley of Chicago, and Mr. and Mrs. Reid as chaperones. They are planning on having an enjoyable outing.

Tom Bowler and Tom Taggart were arraigned in municipal court this morning each charged with drunkenness. They were given fines of \$4 and costs, but were forced to take the alternative of an eight day jail sentence instead of this city.

The Royal Neighbors of Crystal Camp No. 122, R. N. A. are invited to spend Tuesday afternoon at her home, 722 Parker street. All that go are requested to take the one o'clock car and go prepared to stay and visit the Beloit camp in the evening.

Attention Elks! Next regular meeting of Janesville Lodge No. 254, B. P. O. E., will be held Tuesday evening, August 5th, at 8 o'clock. Important business. **Arrested Monroe:** Man here charged with the theft of a quantity of household goods, Henry Roderick, a resident of Monroe, was arrested at the St. Paul station Friday night by Constable Roderick and taken to Rockford to stand trial. The complainant is Alfred Buckridge of South Beloit. Roderick had boarded a train for Monroe when placed under arrest.

Will Hold Picnic: The Eastern Star Study Class will hold a picnic tomorrow at the cottage of Mr. and Mrs. Louis E. Amerpohl. The boat will leave at the landing on the west end of the Fourth avenue bridge at ten o'clock in the morning. An enjoyable time is expected.

Marriage Licenses: Marriage licenses have been issued to Ernest Dunkelberger and Hilda Florenum, both of Beloit and to William H. Lee and Olga S. Anderson of Beloit. Circuit Court Judge George G. Gamm will be at the circuit court chambers all day Thursday, August 7, to transact any business which may be ready for his consideration at that time.

SAM JONES LECTURE AWAKES ENTHUSIASM

DENTON C. CROWL DELIGHTS CHAUTAUQUA PATRONS WITH HIS PRESENTATION.

ATTENDANCE GROWING

Bland's Band and Orchestra on Program Today—Afternoon Concert is Musical Treat.

Interest in the Janesville chautauqua increases with the presentation of each program, but it took a rapid bound this afternoon when Denton C. Crowl delivered, with the fire and famous Sam Jones lecture, "Facts, Philosophy and Fun." Admirers of the former lion of the chautauqua and lyceum platform could easily imagine that he was again before them, so well did Mr. Crowl reproduce his voice, his gestures, his expression and attitude. Those who heard him were glad to be assured that there is still a speaker before the American public who approaches Sam Jones in his power to grill shams, hypocrisy and insincerity.

The grand concert given this afternoon by Bland's Chautauqua Band was undoubtedly the most popular musical program that has yet been presented, no music having the universal appeal of the band music. There are ten accomplished musicians in the band, and tonight will appear as an orchestra to give a program of solos, duets and quartets, closing with the famous descriptive selection, "Battle of the Big Horn." Last night's concert featured five of the musicians are concert soloists, and there are brass quartet, string quartet and symphonic numbers on the program. The largest yet recorded attendance was the largest yet recorded attendance. The musical prelude by the National Concert Party won favor from its first number, a song by Miss Nell Bunnell. She responded to hearty applause for all her selections as did also Miss Edna E. Crumb, a violinist with excellent technique, perfect control of her instrument, and pleasing expression. She was accompanied by Miss Clara Kvello, pianist, whose skill and touch are of an exceptional character. Miss Bunnell was exceptionally happy in her choice of selections, all of them being standard concert selections or folk songs.

Harold Morton Kramer, in his lecture entitled "Here or Nowhere," preached a gospel of optimism and cheer. He asserted the ability of every man to have the will and the desire to overcome the handicaps of hereditary weakness and unfavorable environment and assailed the fatalism and false philosophy best expressed in the words of Hamlet, "There's a divinity that shapes our ends, rough-hew them how we will." Mr. Kramer did not deny that difficulty has its influence in shaping character, but he asserted that God is a God of law and not of chaos, and that he helps those who help themselves, and that as a man sows, so shall he reap. History, he said was full of examples of men who achieved success in spite of adverse conditions, discouraging environment, and unfavorable circumstances. The late Governor Johnson of Minnesota was an example of the triumph of will over here, and his environment, for the governor was the son of a drunken father and his mother was obliged to take in washing to support herself and her children.

Sunday Evening Program. To add to the glory of the day, the National Concert Party repeated their repertoire of selections at the evening, and they won the applause and many a good cheer from the huge crowd which attended this procedure. Miss Nell Bunnell, who was the voice with exceptional talent, her songs were difficult and they were sung with great vigor and with great association to the spectators. Miss Edna E. Crumb, violinist, appeared her selections of the afternoon, pleasing all who heard her. Miss Clara Kvello, pianist and reader, was extremely interesting. Her witty short sayings and interpretation was strong.

Harold Morton Kramer lectured on "Rags and Rainbows" in the evening. Vital issues concerning our everyday life were carefully outlined and explained, and the vice which is lurking upon every avenue of life was thoroughly stated by Mr. Kramer. He fully discussed the evolution of this great universe, and pointed out the lawlessness of the old world as compared with that of the new. Talking along temperance lines and reviewing his own experiences which were thrilling, he easily convinced the patrons that he was talking about the bettering of present day affairs, both in business and private life. Mr. Kramer's grand orator and novelist with a strong delivery. His points were facts and many present were amazed at some of the stirring statements which were made.

In addition to the regular program a Woman's Day, Wednesday at the chautauqua tableaux, under the auspices of the Woman's Suffrage Association of Rock County, will be a special feature. A number of Janesville ladies will appear in these tableaux which are being arranged by a committee consisting of Miss Sarah Sutherland, Miss Mae Hayes, Miss Elizabeth Doherty, Miss Julia Lovejoy and Miss Mary Langdon. The first tableaux will represent a domestic scene of a mother and children, the second will be an arrangement showing women in Revolutionary, Civil war and modern costume. The third tableaux will be a living reproduction of the statue entitled "The Suffragist Arousing Her Sisters." This beautiful group by a woman sculptor, has aroused widespread comment. All three of the tableaux promise to be very charming.

HEARINGS CONCLUDED BY BOARD OF REVIEW

Today Was Last Day For Hearing Of Complaints on Assessments of City Property.

Sessions of the Board of Review were concluded today and the time for hearing and acting upon complaints of those who considered their property incorrectly and unjustly assessed is past. The sessions were comparatively uneventful and protests were very few as not many changes had been made in the valuations made last year. In some instances there were significant reductions. The most significant rates in assessments were in those of the three public utility companies, the Janesville Water Company, the Janesville Electric Company, and the New Gas Light Company. The valuations of these corporations were increased over a quarter of a million dollars. The assessments of the Electric Company were made by the Wisconsin Railway Commission. City assessors will now proceed to close up the assessment rolls.

GOULD SENDS WORD BRIDGE MATERIAL HAS BEEN SHIPPED

Work Will Probably Begin Tomorrow In Spite of Investigation Made By Federal Government.

Four carloads of bridge material have been shipped by the Gould Construction company from Davenport, Ia., for use in the building of the new bridge at Milwaukee street, according to word received by city officials from A. G. Gould, president of the company. The letter stated that the cars should arrive in Janesville sometime Monday and the men would be on the job at once. This is taken to mean that actual work will begin tomorrow. Two carloads of outfit will be shipped at once from La Porte where the company has completed a contract and Mr. Lepard, vice-president of the company will arrive in Janesville shortly to superintend the operations.

"There will be no delay in building the bridge," declared Mayor Patters today, speaking concerning the investigation which the federal government has taken the trouble to look into the bridge as soon as it can be built and inasmuch as no interference with the construction of the bridge is to be feared, it is doubtful whether their jurisdiction in the present case is sufficient to hold up the work.

According to a local attorney who has taken the trouble to look into the case, the war department has no authority to look into the situation presented in Janesville. He claims that an express act of congress prevents the navigation on streams running through two or more states. Any supervision in this regard, says the attorney, lie with congress itself.

He explained further that this law had received the construction of the supreme court.

On request of Mayor Patters, Acting City Attorney John Cunningham was looking up the federal law on the matter in question today and will report his findings as soon as arrived at. It was also expected that word would be received from Major Kellar late today or tomorrow.

The action in regard to the erection of buildings on the side of the bridge was aired at a hearing of the state railroad commission and the fact that the war department has just completed a survey of the Rock river valley from Janesville to Sterling, Ill., with the idea of determining the navigability of the stream, are probable reasons why the federal authorities have interested themselves in the case.

J. A. Shore, of the Gould company, who will be the foreman in charge of the Janesville job, arrived in the city today, and stated that his force would be ready for work on Tuesday.

The members of St. Mary's Court No. 175, W. C. O. P., are invited to attend a picnic to be given at Yost's Park, Wednesday, Aug. 6, by St. Thomas Court No. 183 of Beloit.

Mrs. Hannah Marshall, Rec. Secy.

MEN SHOULD WEAR SKIRTS IN SWIMMING

University Swimming Instructor Says Men Are Too Scantily Attired While Women Dress Like Arctic Explorers.

Madison, Wis., Aug. 4.—H. D. McClesney, swimming instructor at the University of Wisconsin, in charge of the Birmingham park bathing beach during the summer, thinks men should be cautioned in the matter of bathing garb more than women.

"I think men should be compelled to wear bathing suits with a short skirt," he said. "With all the people who swim here we have very little trouble regarding proper dress. What trouble we have is with the men rather than with the women. My opinion about the dress scars on the heads of people bathing beaches east and west is that most of it is newspaper talk. One thing is certain, however, and that is that women should not dress up like an Arctic explorer to go in swimming."

Every time I see a woman come in the water attired from head to foot with a cap, a blouse, skirt, stockings and bathing slippers, I say, 'There's a woman that wants to paddle around in the water rather than swim.'"

REVENUE CUTTERS CELEBRATE ESTABLISHMENT OF SERVICE

Washington, D. C., Aug. 4.—Aboard all craft in the revenue cutter service—wherever stationed—from Bering sea to the Maine coast, the officers and crews today formally celebrate the 123rd anniversary of the establishment of the service. The character of the celebration is substantially the same on all vessels. The ships are "full dressed," the officers and crews, in full uniform, are mustered on the main deck and the executive officers read a brief history of the revenue cutter service.

WOMAN'S PAGE

The Evening Chit-Chat
BY RUTH CAMERON

A MEAN FEELING.

A young friend of mine who is an art student came to see me the other day looking very blue and depressed.

At first she insisted that there was "nothing the matter," but finally the truth came out. One of her dearest friends had won a valuable prize in an art contest.

It was a shameful reason for having the blues, wasn't it, and yet a typical one. One of the saddest facts in the human character, to me, is our proneness to feel cast down at other people's successes. "If envy were a fever, all the world would be ill," says a Dutch proverb, and I'm afraid this cynical statement is all too true.

Show me a man who genuinely and spontaneously rejoices in his friend's achievements when these shine his own in the same field, and you have shown me one among ten thousand.

We may school ourselves to express and even to feel some pleasure at our friend's superior achievements, but pleasure isn't the first instinctive feeling. That of the average weak human being is usually a sick sinking of the heart.

Hand in hand with our envy of other people's successes goes an even less praiseworthy feeling—complacency over other's failures and weaknesses.

One of the old Roman philosophers has written something to the effect that almost anyone would get up out of bed at midnight and cross the Tiber in a leaky boat for the pleasure of hearing that someone whom he had always thought extremely upright was a liar.

Of course that is an exaggeration, but the kernel of truth within the shell of hyperbole is painfully large.

Now it seems to me that all this meanness and envy grows out of one mistake—our false idea that we must always be in competition with our fellow-men, and that another man's virtue or success makes us less, or another man's failures or weaknesses makes us bigger. It is all wrong, this notion of competition. It brings infinite unhappiness into the world. We aren't made to constantly compete with each other, and when we learn it we will have taken a long step on the road to happiness. One's only competitor should be one's self, and one's highest ambition to get the best possible out of that self.

There is enough happiness in the world for all of us if we will only occupy ourselves with taking it, and not fret about what our neighbors have.

The Creator never put vast multitudes of people on this earth," says Orison Swett Marden, "so that a limited number of us should be able to furnish enough for all. There is nothing in this world that men desire and struggle for, and that is good for them, of which there is not enough for everybody."

Dear Mrs. Thompson: Will the long semi-lifting coats with large collars be popular this winter? LOUISE.

There is no indication that the large rolling collar or shawl collar, as it was called, will be much worn next winter.

Dear Mrs. Thompson: A boy friend of mine, ten years my senior, has known me for hardly a year. Although he has not been exactly tentative to me, he often says "no" and took me places, I never thought of anything except simple friendship, and I do not think he did either.

However, as he lives out of town, I wrote to him asking him to visit myself and family for a few days this summer, but has as yet received no answer.

Did I break a rule of etiquette by doing that and does he think I am trying to "catch" him, or has he simply declined the invitation without taking the trouble to answer it?

I would be very thankful for some advice as I valued his friendship very highly.

It would have been only courteous of the young man to answer your letter even if he wished to decline the invitation. It was hardly good form, however, for you to invite him to visit without his expressing some wish to visit your town. However, if he is the conceited kind who cannot tell friendship from the wiles of a husband-hunter, I wouldn't worry about losing him. Just do nothing. The next move is his.

Dear Mrs. Thompson: (1)—I am a girl of twenty summers. I have been keeping company with a young man whom I have known all my life. He asked me to be his wife and I told him I would love him dearly, and he tells me he loves me. Should we tell our parents about our intentions? (2)—We don't agree all the time on everything and quarrel a little. Will we get over that when we get married? (3)—What preparations should I make? I live on a farm and intend to be a farmer's wife.

Dear Mrs. Thompson: (1)—Is it wrong for a girl when going with a fellow to go to his house, pretending to see his sister? (2)—When you make a new acquaintance with a young fellow and he links at you, is it wrong for the girl to look back at him? (3)—Who should write first, the boy or the girl? CHUMS.

(1)—It is deceitful and anything that is deceitful is wrong. Besides, she is just fooling the boy, his sister or anybody else. (2)—It is very unadvisable. (3)—The boy.

for all kinds of canning and preservation of food.

Very few housekeepers have given much thought to sugar and the proportions in which it should be used. For instance, generally one part sugar to two parts flour in cake making, and canning fruit one part sugar to two parts fruit (by weight) and jellies from three-quarters to one part sugar to one part.

Unskilled Cookery Mark.—Much over-sweetened or none at all has been the rule with most housekeepers which is a mark of unskilled cookery.

The amount of sugar to be given children and in what form is surely of great importance. Sugar would seem to be a food especially good for children because of their great activity. Children must have some sugar in their food and it is a natural craving. A child a year old who gets two quarts of milk a day has three ounces of milk sugar. A child even in its second year, if allowed to taste sweets in any form, loses the taste for milk which contains such a delicate flavor of sweets. I would also add that even much later for the same reason the giving of large amounts of sugar in cakes, cookies, on cereals, etc., is to be carefully avoided.

Children do not require a variety of flavors to stimulate the appetite, but the taste is easily changed and when once converted the restoring of the normal appetite is difficult. Keep sugar off much, porridge, oatmeal, etc., where milk and cream is used, and give the child an occasional pudding or a lump of sugar or some home-made candy.

In this manner the whole diet of the child is made more wholesome. In sweet fruits the child finds sugar in a healthful form and should be freely furnished. The adult, however, four or five ounces of sugar a day is a useful and valuable food.

THE KITCHEN CABINET.—HERE is an ugly kind of forgiveness in this world—a kind of hedgehog forgiveness shot out of quills. Men take one who has offended and set him down before the blowpipe of their indignation and scorch him and burn him fault into him, and when they have kneaded him sufficiently with their fists, then—they forgive him.

Henry Ward Beecher.

MEATS.—The German sour meat is not well known among other nationalities, and is so altogether good that it should be better known.

German Sour Meat.—Add to a half cup of vinegar a cupful of water, one onion and a teaspoonful of whole allspice, one tablespoonful of sugar and salt to taste. Put a piece of meat for roasting in this, turning it often; let stand three days, when it is ready to brown in fat and roast, using the pickle to baste it when roasting.

Sour Batten.—Take a nice piece from the round, lay in vinegar, with an onion, salt, allspice and pepper, with one bay leaf; let stand three to five days, depending on the amount of the meat. Brown the meat in a deep frying pan, pour in the vinegar and sufficient water to cover the meat; simmer until the meat is tender. Strain the gravy from the spices, and thicken with flour before serving.

Mutton With Peas.—Cut mutton in serving sized pieces, brown and put to cook in a small amount of water; when nearly done add a can of peas and season well. Serve with the peas poured over the mutton.

Brown Stew.—So few people know how good a brown stew may be. Cut the meat, which may be the tougher portions of the round or a piece for stewing. Cut up in small pieces and brown in a little hot suet which has been tried out. Add a small chopped onion, and let it brown with the meat. Dredge with flour, which will give the gravy thickening, and cook with boiling water, just kept at the simmering point until the meat is tender. Serve with boiled potatoes. The seasoning may be given before the flour is added to the meat.

Hamburg Steak.—Season hamburger steak with a chopped onion, allspice, cloves, paprika and salt. When ready to serve pour over a cup of well seasoned tomato sauce.

One chicken will serve a small family for several meals. Fry the bits liked best, stew and have biscuits and gravy with the larger portions.

Talleyrand and Josephine.—Talleyrand, the notorious French statesman, friend of Napoleon and ambassador at the British court, was designated for a military career, but an accident, when one year old, rendered him a cripple for life. His cunning cleverness, political penetration, adroit intrigues and ingenious subterfuges were vehemently opposed by the emperor's wife, Josephine, who energetically denounced him as a "cursed cripple."

HOUSEHOLD HINTS

Things Worth Knowing.—To have dumplings fluffy and light, keep them boiling steadily from the time you first put them into the kettle, and be careful not to take the lid off any oftener than necessary.

To Remove Stains.—If you have a fruit stain on your white table linen or an ink stain on your white shirt, wet it with a little peroxide of hydrogen. Pour a little of the liquid on the stain, leave on a few minutes, then pour boiling water on and hang in the sun to dry. Do not use on colored clothes; it will fade them, as it is a bleach.

Water spilled on the bed when someone is ill may be quickly dried by filling a hot water bottle full of boiling water and placing it between the mattress and the bed clothing.

Stewed Beets in Sauce.—Take two beets in oven until tender, when cut into a white, then wash out, and remove the skin, and cut them into slices. Put them in a saucepan, pour over a little vinegar and some stock or gravy. Simmer gently for about an hour. Pour off the gravy and reduce it to a glaze, and two table-

spoonfuls of brown sauce. Roll up for a few minutes; mix these with the sliced beets, heat very carefully, dish up, garnish with bread crumbs and serve.

Shirley Sauce.—Peel and slice twelve ripe tomatoes. Chop four large red peppers and one large onion. Put in a porcelain-lined kettle and boil until all will go through a coarse sieve. Strain and add one heaping teaspoonful of salt, two of sugar, half cup of vinegar and boil until thick as catsup and bottle in small bottles while hot.

Tomato Preserves.—Peel eight pounds of yellow tomatoes. Add seven pounds of sugar and the juice of four lemons. Let stand over night. Drain off sirup and boil ten minutes, skimming all the scum from top. Add tomatoes and boil gently twenty minutes. Remove the tomatoes with skimmer and spread on dishes to cool. Boil the sirup down until half of the original amount.

India Relish Pickle.—Grind twelve apples, six green tomatoes, six mangoes and one box of seeded raisins, add one quart of vinegar, two cupfuls of brown sugar, one tablespoonful of cecery seed, one heaping table-spoonful of salt and cook for one hour, stirring constantly. Pour into jars and seal.

Every Day Talks for Every Day People

By FRANCIS JOYCE KENNEDY

Our proposed Civic club is a club that should carry on its books the name of every woman of our city. What can one woman do? For answer let us run over some of the splendid works that women have accomplished along the lines of civic betterment and progress. To start in almost every well kept village, or city some women must be given credit for having inspired an interest in the health or cleanliness of the place.

In 1884 it was a woman who organized the Ladies Health Protective Association of New York. Today many municipalities are enforcing the measures she instituted. It was a woman who rid New Orleans of its bad water and its plague breeding system of surface sewerage. In Dallas, Texas, it was a woman who suggested the closing of stagnant pools to prevent yellow fever. It worked.

A woman in Kalamazoo, Mich., went about town one day taking snap shots of dirty alleys and back yards. Then she prepared and delivered an illustrated lecture which so aroused the citizens to their shortcomings that a general cleaning up took place. Fame spread and she was called to other cities to repeat the good work.

It was a Virginia woman who originated the School Improvement League. An Ohio woman saw the need of books among the rural people and inaugurated the traveling library. This plan has proved so worthy that women's societies all over the States have adopted it.

It was a Chicago woman—God bless her—who conceived the idea of the Juvenile Court, a blessing to every city in which it has been instituted. A woman introduced the kindergarten school; a woman originated the vacation school; a woman too, brought about the free medical examination of school children.

It might keep on indefinitely enumerating the good work that the splendid women of our country are doing in this great land of ours. Right here in our town the women have accomplished much. To weary not in well doing seems an applicable motto for our new Civic club and its members. I have attended their meetings and the desire to do something that would really benefit our city was plainly apparent on every state.

What other women have accomplished, thereby bettering their home town the place where they are to raise their little children can be wisely emulated by we women of Janesville.

This new club can work hand in hand with the 25,000 clubs. In a way, there is work in this world that the wise Creator intended men to perform, and in the end—a woman loses out trying to enter this field. There is also work in this world—plenty of it—that was intended for a woman's hands. We can work with this 25,000 club and still stay on our own side of the fence. We can do good work too. If all we women co-operate, pull together, and work for the eventual good of our city we can do more good than can easily be reckoned, for like a stone cast into the water, forcing the ripples so will the good work reach even to the shores of Eternity.

Sixty Stores Combine For Gazette's Semi-Annual Dollar Day.

August, the sales month the world over, is the right time to hold such a sale as Dollar Day.

Twice each year, in February and August the merchants of Janesville unite to offer the buying public of Rock county such tremendous bargains that it will make this city a magnet for every keen buyer within many miles.

August is a slow business month. A score of reasons all tend during this period to bring business to a standstill, and it is planned to make this day so remarkable in the bargains offered that it will bring up the sales of this slow month in an immense wave of business.

Keen business men practice economy by buying when the prices are low. Household economy may be practiced in the same way. Buy now for next Summer, next Spring. You cannot fail to find the value of your money greatly increased now.

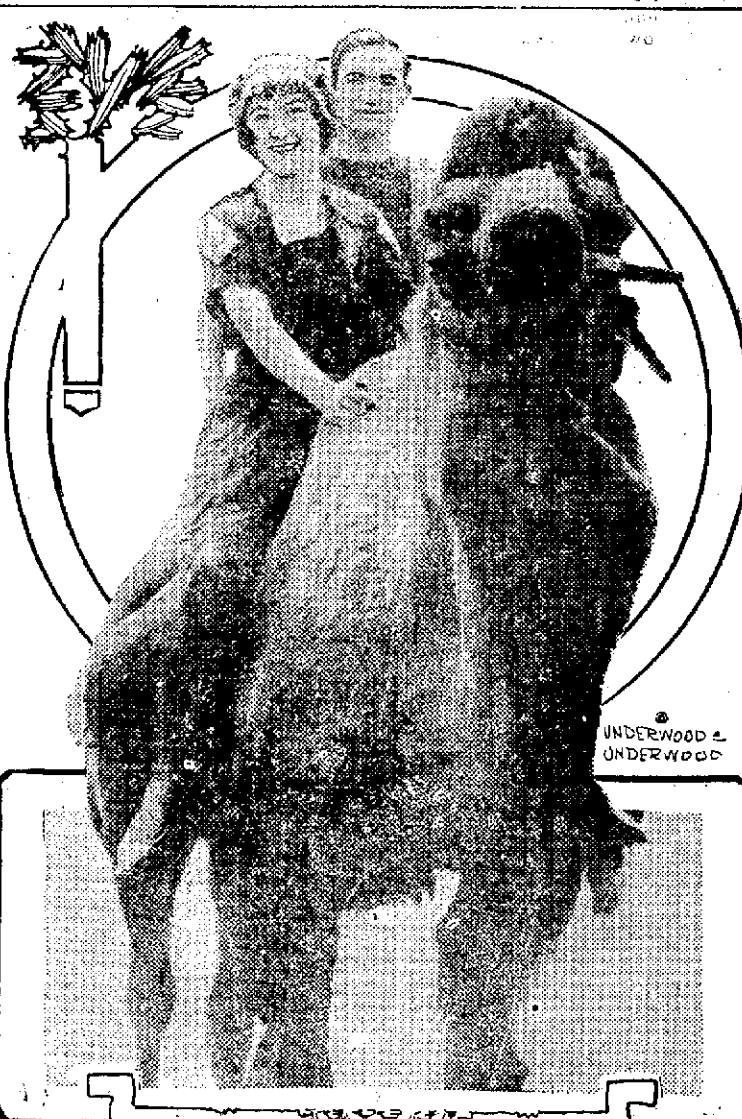

Inventories of stocks have shown the merchants what line of goods they must close out even at startling price sacrifices. Not one merchant but has numerous lines that he is willing to turn into money at practically any price.

All these goods are to be piled on their tables on this date in making one gigantic BARGAIN DAY.

Wednesday, Aug. 13 Dollar Day.

On this date every merchant will feature the dollar purchase. Either one big bargain for a dollar or a combination of miscellaneous items. Everywhere the dollar will predominate and on this day at least will double, triple and quadruple its every day value.

GIRL SWIMMER SAVES CAMEL THAT IS NEAR DROWNING AT CONEY ISLAND BEACH

Miss Elsie Maher and the Camel.

New York.—What was perhaps one of the most daring rescues ever seen by the throng that flocks down to the beach at Coney Island, was when Miss Elsie Maher, a veritable mermaid, went to the rescue of Peter, who, in company with his heterogeneous collection of animals, was taken out on account of the heat for the first day of the season.

Peter, forgetting that he was out in the ocean and not in the desert, went beyond the "darker ropes" and soon found himself floundering in regions with which he was unfamiliar.

Miss Maher, noticing the animal's distress, swam out to it, and, getting a good grip on its back, guided the "ship of the desert" safe and sound and high and dry onto the beach, where a crowd of spectators, who had been attracted by the unusual affair, applauded the valor of the fair young rescuer.

Important questions in relation to the administration and development of the work in the churches and boards are slated for discussion.

Side Lights On The Circus Business

By
D. W. WATT

The Miller Bros. & Arlington "101" Ranch Wild West show has come and gone and this to the average Janesville citizen does not mean so much. But back of this the name of "101" Ranch has been prominent for many years in the history making of Oklahoma. It was 42 years ago last April that Geo. W. Miller, father of the Miller Bros. of today, left the old home in Kentucky and started with a fine overland outfit for California, and it was after many weeks of hard travel that the family came to a stop in Kay

county, Oklahoma, and during the summer several other outfits bound for the far West had joined them, and when they reached this garden spot in Oklahoma they all agreed that they would stop there a few days and rest up their horses before starting out across the desert. During this time Geo. W. Miller had driven around Kay county for some miles and the third day on arriving back to camp he said to his wife, "Mother, I think this is about as near the Garden of Eden as any

spot I ever see, and it is here that we will drive our stakes and make a home." This was along about the middle of the summer in 1870, and it was here that Geo. W. Miller and his wife raised their little family and began in a small way to lay the foundations for one of the greatest ranches in the world.

They now have 110,000 acres in the ranch, 20,000 of which is grain this year. They employ 700 men on the ranch. They have in round numbers 20,000 head of cattle, 15,000 horses and mules and 10,000 hogs, and the Miller residence cost \$40,000. They have several tennis houses and their buildings on the ranch are lighted and heated with natural gas.

They have oil wells which for more than a year have turned out an average of 125 barrels of oil every twenty-four hours. Last year they sent 250,000 bushel of seed corn, ranging in price from 90c to \$2.50 per bushel. This was all sold to jobbers in New Orleans, Houston and other southwestern cities. Geo. W. Miller, the father, died eight years ago, and up to that time there were none of the Miller family that ever thought of going into the show business.

I will now tell you something about the partner of the Miller Bros., Eddie Arlington, as he is known in the show business. His father, Geo. Arlington, who is the acting manager back of the show, has practically been in the business all his life. He was with the old Adam Porpoise show for some years and later went with the Barnum & Bailey show, where for many years he had charge of the privileges. Geo. Arlington is one of the few business men who can pay out his money with the same smile and grace that he can take it in. Joe Miller, the only one of the Miller Bros. with the show, was the organizer and is the reactor of all the inside workings of the great "101" Ranch Wild West.

Only last year the government sent their agents to "101" Ranch and there secured pictures of the old Indian and the buffalo to be used on the new nickel which was designed and minted last spring, and this same Indian and same buffalo whose pictures adorn the new nickel were here with the show last Tuesday.

Edward Arlington, who is an equal owner with the Miller Bros. of the great show, after finishing his schooling and before he was out of his teens, was taken in charge by James A. Bailey of the Barnum & Bailey show, and has been in the business continuously ever since. He was one of Jas. A. Bailey's able lieutenants all through the five years which the show spent in Europe, and no man with the Barnum show stood higher in Mr. Bailey's estimation than did Eddie Arlington.

It was six years ago last winter that he conceived the idea of visiting "101" Ranch and after making the trip to the Miller Bros. to start the Wild West show which exhibited here last Tuesday, and on account mostly of its coming from the famous "101" Ranch it soon was prominent before the people of California to Maine, and before coming to Janesville this year they visited all the large cities through the east and have enjoyed a big business all during the season.

The winter quarters of the show proper are at Lake View, New Jersey, half way between Patterson and Passaic. This is winter quarters for everything except the stock. This is always shipped to "101" Ranch at Oklahoma and wintered there. Eddie Arlington makes his home at Lake View, and it is here that he organizes the show every winter for its campaign the coming summer. It is here that he rebuilds the cages, the cubs, and makes the wardrobe, and along in March everything is shipped to Oklahoma, where they usually open in April. The show expects to close the season sometime between the 20th of November and 1st of December this year.

From Janesville the show went to Fond du Lac; from Fond du Lac to Oshkosh; then to Waupaca; then to Neenah; then to Milwaukee for two days, Sunday and Monday, from Milwaukee they go west, showing two days in Minneapolis and one in St. Paul.

It is safe to say that the "101" Ranch leaped into notoriety quicker than any show that ever was put onto the road. Little did Father Miller think the day that he drove his stakes in Kay county, Oklahoma, that it would become one of the famous ranches of the world.

Mrs. Miller, mother of the Miller brothers, is still living, and with Mrs. Joe Miller returned only a week ago from a three months' trip through Europe and came from New York direct to Detroit last week, where they joined the show, and they told me here that they would return to their home in Oklahoma after they were through visiting with the son and daughter, who is daughter of the outfit.

Joe Miller is a typical Kentuckian, with the unmistakable accent in his voice. A ready talker and a most genial gentleman to meet, and when I made him and Eddie Arlington good-bye Tuesday, they said, "Give, you and your friends with ways be welcome visitors at '101' Ranch."

SIDEWALK SKETCHES

EXCLUSIVE STYLES

By Howard L. Rann.

The exclusive style is a humorous appellation given to women's clothes. Whenever a woman invests three-fourths of her husband's salary for the preceding year in an exclusive style she can have the satisfaction of wearing it for several days before she becomes somebody's maid emerges with one just like it.

Exclusive styles are created solely in Paris, France by a corps of high pressed dressmakers who are caught immediately after a nightmare and duce designs which never occurred to anybody in his lucid intervals. Great economy is exercised by these designers who can make a voluminous skirt out of half a yard of cloth and enough left for collar, belt and side facings. Husbands are called upon to pay for these designs do not feel this economy at all, however.

America does not produce any exclusive styles, but has to import all of them that have not already appeared in the patent insides of the country weekly. It considered a great privilege to wear an exclusive style which was sent out by some foreign modiste who seldom makes a profit of over 950 per cent, after allowing the purchaser to pay the customs charges, ocean freight, advertising bills, store rent and the wages of a saleswoman who picked up a

French accent at the old home in Vermont.

There have been numerous attempts to popularize exclusive styles gotten up in this country for home consumption, but all have failed. One of the earliest of these attempts was that of Dr. Mary Walker, a pioneer in the realm of the split skirt, who borrowed her ideas of dress from the sultan of Turkey. Dr. Walker did not yet very far with her humane propaganda, but she has lived to see the triumph of the vital principle of her reform.

Exclusive styles are always put on the market early, in ample time for friends of the wearer to size up its salient features and have an exact duplicate made by the time the season opens. The average life of a real exclusive style is about three weeks by the stop watch, after which it is halfway for future generations to wonder at.

Take your bundle from the chest and with wisdom it invest; you will find that scheme the best ever found, no one jibes or covets, or will be chaps who lose their rolls INVEST buying mines which are WISELY, but holes in the ground.

Better far is five per cent—it will bring you more content than some hot air from a great selling stocks; and the man who's truly wise bricks from strangers' never buys; and he (when not swatting flies) guards his rocks. Too much hurry to get rich often lands men in the ditch, where they raise, in doleful pitch, their lament, muttering, "That deal was raw! 'Twas the worst we ever saw! It were better far to draw five per cent." When your rolls dropped out of sight and you are a saddened wight, people say, "It served you right—you're a clump!" Scornful words and ribald jeers keep on sounding in your ears till your eyes are shedding tears like a pump. If at home you use your cash while the dupes buy green goods trash you're not apt to go to smash, out and down; and your neighbors will arise, saying, as they sweat the flies: "He's a treasure and a prize to this town!"

A famous scientist condemns the light bottle

We reprint herewith an extract from an opinion rendered by a famous scientist showing that beer in light bottles can not remain pure.

"Beer bottles should be manufactured from reddish-brown glass, inasmuch as same will to a much higher degree than any other kind of glass, minimize the influence of the rays of light on the quality of beer, and will protect the latter against acquiring the disagreeable taste (Sonnengeschmack) due to the chemical action of light.

"In white and green glass bottles the beer is most affected by the action of the light. Such bottles are, therefore, absolutely inappropriate and should never be employed by brewers."

CHAPTER X.

In the Day of Battle.

Ralph Van Dyke, corporation lawyer, and the railroads' mouthpiece in Washington, sat by the desk lamp in the library of Mark Robertson's Hotel Keswick suit, reading—and here and there altering—several typewritten sheets. Across the desk from him sat Jim Blake, cigar in one hand, a telephone receiver held to his ear.

"The master of the machine was not reading his forces in person tonight. He seldom did so. The commanding general's place is on a convenient hilltop; not in the vulgar thick of the fray. And, for divers reasons, Blake had chosen his son-in-law's apartment, on this night, as his hilltop. The telephone admirably filled for him the dual roles of spy-glass and courier. Just now, he was listening intently to a report from Tim Neilgan at the Capitol.

"Good old Tim!" he broke out after a moment's close attention to the receiver. "What d'ye think of that, Van Dyke? We get the roll-call."

"Good!" pronounced Van Dyke, glancing up from his reading.

"Standish still in his seat?" queried Blake into the transmitter. "Yes? All right. Keep right on with the program I gave you. No need to change it unless something unexpected cuts loose. And it won't. What? No. Not yet. Can't get a word out of her. But we will. Don't you worry. So long."

"Well," he added to Van Dyke, as he hung up the receiver and pushed the telephone back on the table-desk's flat surface. "This roll-call gives us another hour to breathe in."

"We'll need it. And more," said Van Dyke, returning to his reading.

"Sure you're making that strong enough, Van Dyke?" he asked. "Don't use the word 'utensil' when 'spade' will do just as well. Cut out any flowery stuff and bang away at the point."

"I have, replied Van Dyke, handing Blake the edited pages. "Look it over and see how it strikes you."

Blake took the manuscript and scanned its contents from beneath his drooped lids. As he read, a look of unqualified approval replaced the doubt on his face. He nodded emphatically, once or twice. In his interest he unconsciously muttered, half aloud.

"Standish, the arch reformer," he murmured. "A moralist dethroned—scandalous past of a house leader brought to light—disciple of purity in politics convicted of dissolute private life—Hm! That's the stuff. It'll make 'em sit up, I guess."

"If we can use it," corrected Van Dyke. "As it stands, it represents nothing but three spoiled sheets of white paper."

"It'll represent one perfectly good insurgent chief split up the back, before another hour's past," retorted Blake. "I'll have the Woman's name by that time."

"What is that stubborn little telephone girl holding out for, I wonder?"

"It's past me!" growled Blake. "If it was a man I could size up the game at a glance and I'd know just what move to make. Every man has always had his price. Except One. And we crucified Him. But with women it's different. You can't tell what a woman's going to do. For the mighty good reason that she doesn't know, herself. This Kelly girl's got me guessing. She let me think I could buy her dead easy. Then she played for time. And now she's thrown us down altogether and won't say a word."

"You've sent over to central for that duplicate list of all the numbers that were called up from the Keswick today? Let me look at them."

"They aren't here yet," replied Blake. "I only sent for them a few minutes ago. You see, I thought I could save a lot of time by getting the information, direct, from the girl her-

self."

"The girl!" echoed Van Dyke disgustedly. "We've already wasted too much time on her. Can't we get hold of Standish?"

"He'll be along pretty soon."

"You've sent for him? You're sure he'll come for your sending?"

"No," drawled Blake, "I didn't. And he wouldn't. But Gregg started a whisper in the house that a scandal will break before morning. And he threw a hint of the same sort to the newspaper boys."

"Oh, if we can publish this as it's written here," broke in Van Dyke, "we've got him! This story makes him out the lowest blackguard un-bung."

"And," amended Blake with ingenuous self-congratulation, "there isn't a word in it that hasn't got some sort of foundation on fact. That's saying a whole lot for a campaign scandal. We've got facts—real facts. Maybe some of 'em are twisted around so that you'd have to look at 'em twice before recognizing their dear familiar faces. But they're facts, just the same."

"And they're useless," grumbled Van Dyke, "just because the one fact we need we haven't got."

"You mean the Woman?"

"The Woman's name. We can't get any one to believe a word of the story without that. What time is it? Oh, I didn't notice the clock. The time's getting short—dangerously short. If we want to get this story in any of tomorrow's papers we must have her name mighty quick. As it is, I'm afraid it'll be too late for anything but the last editions of the morning papers. What did the Associated Press people say, when you—"

"Jennings promised to hold a wire till the last minute. Better take the story around to him and tell him to have it ready. He understands. But be sure to tell him not to let it go till I give the word. A false move just now would be a boomerang that we couldn't stand. Come back as soon as you can. We may need you."

Van Dyke, pocketing the typewritten sheets, departed on his mission; almost colliding at the door with Tom Blake, who was coming in.

"Hello, dad!" hailed Tom. "I just dropped in on the way to the club to say 'howdy' to Grace. Where is she? Turned in?"

"No. Hasn't even got in. The train's hours late. Washout on the road somewhere. Mark telephoned up from the station. He's gone back there. They ought to be here any time now. Want to wait?"

"I'm sleepy!" yawned Tom. "Gee, but I wish Grace would show up!"

"So does Mark," answered Blake. Then, after a moment, a chuckle of genuine amusement startled his son.

"What's the joke?" asked Tom. "Did I miss it?"

"Yes, you missed it, all right. Both you and Grace always miss it. But I never do. I was just thinking—my little Grace—my kid—keeping the former governor of New York cooling his heels in a drafty railroad station. And, forty years ago, her father was a barefoot kid with one suspender, pandering kind-hearted old folks in the street with dying-mother stories and getting nickels from 'em. And even as lately as twenty-two years ago, what was I but a Chicago city clerk making an honest living by keeping my eyes shut and my palm open?"

"Dad," complained Tom, "I can't make you out! You always seem to take a savage delight in rubbing in the fact that everything we've got we owe to graft."

"Well," asked Blake, puzzled, "don't we? If we don't owe it to graft, what do we owe it to, I'd like to know?"

"To change the subject, dad," broke in Tom, "I've been making some plans."

"Have, hey?" queried Blake as though listening to the prattle of a somewhat backward child of six. "Such as what, for instance?"

"Well," answered Tom, trying not to show his irritation at Blake's tone. "The fact is—I want to get married."

"The blazes you do! Is that a boast or a confession?"

"I don't quite understand you," said Tom stiffly.

"I mean," began his father, "I mean—oh, never mind all that. Who's the girl?"

"Before I tell you," evaded Tom, "I'd like to get your views on the proposition in general."

"In general?" repeated Blake. "Son, marriage is never a proposition in general! Because every woman is an exception that proves no rule. You can't classify 'em any more than you can classify a nest of hornets that you happen to step into. Hell's full of women. So's Heaven, I guess. But

neither class got to either place by following any 'proposition in general.' Tell me," he demanded, his philosophical mood changing in a flash to one of almost savage intensity, "is this girl the sort who can help you in getting where I want to put you?"

"How can I tell? You've never told me just where you intended to put me."

"Then I'll tell you now. There's no real need in your sailing any farther under sealed orders. I've made you a pretty fair lawyer. You'll have one more term as assistant district attorney. Then one as district attorney. Then as attorney-general. After that a term or two in the cabinet—just to get the run of things—"

"There's only one thing left," said Tom, almost in awe, as his father hesitated.

"Yes?" replied Blake grimly. "Well, maybe that won't be left when we get through. Now you can see why the girl must be of good family and have social position and breeding and all that kind of thing. Those are the things I'm shy on. And my children must make it up for me. This girl you want to marry—can she help you? Can you take her with you—right up to the White House?"

"I don't know," returned Tom. "You see, I've never thought of her as a political asset. Happiness means a good deal more to me than position. I've already told her so. I—"

"Told her so? Then—then, you've asked her to marry you?"

"She's refused me—so far."

"Well," grinned Blake, vastly relieved. "That's far enough, I guess. Don't go overplaying your luck."

"I'm going to stick at it till I win out!" declared Tom. "And I'm—"

"No, no! Don't do a crazy thing like that, son," pleaded Blake. "Take your medicine like a man. Don't keep on pestering the poor girl. By the way, you haven't told me who she is."

"She's—" faltered Tom; then, taking the plunge, he blurted out: "She's Miss Kelly."

"Kelly?" repeated Blake, mystified. "Yes. Wanda Kelly, the phone operator downstairs."

"What?" exploded Blake. "Then he collapsed in the nearest chair and stared in blank helplessness at his son."

"Well," demanded Tom, instantly on the defensive.

"It's—it's a bum joke," growled Blake. "Maybe it'd go better with the banjo. Stop geying me, boy, and tell me who the girl really is."

"I told you," repeated Tom. "She is Wanda Kelly."

There was a dead pause. Blake at last broke it.

"There's about forty-five million women in the United States," he muttered dazedly. "And out of that whole lot, you had to go and—fall in love with—"

"What's your objection?" bristled Tom. "You don't even know her, yet."

"I don't, hey?" retorted Blake. "Then, checking the impulse to tell his son the story of his verbal tilt with Wanda, he added:

"Maybe I don't. But I know her kind. She's after a rich man's son. She's an easy-mark hunter. And she's found one all right, all right."

"That's absurd. You don't know—"

"Absurd or not," snapped Blake, "it's got to stop short! I'm not going to let you throw yourself away on a girl like that. If it comes to a show-down, I'll withdraw my support from you. And then what can you do? Hey? Answer me that. Here I've given you the softest snap there is—a big salary for loafing around an office a few hours a week. How much could you make by your own law practice if once I take my hand from under you? You haven't got an earning ability of a thousand dollars a year. And you know it. Suppose I try that; and see if she's so blooming anxious, then, to marry you."

"I understand," said Tom bitterly. "But you're wrong. I didn't ask your consent. I just told you what my plans are. That's all."

"It's enough, I guess."

"Look here, dad. You spoke just now of coming to a show-down. Also you claim I'm no good without your backing. If I can't make a living on my own hook, it's high time for me to begin to learn how. If all the education and money and training you've spent on me have fitted me for nothing except to be a political catspaw for you, it's time I started along a fresh line. You've outlined my position pretty clearly. And I'm going to make my own way—with the girl I mean to marry."

"Oh, you poor wall-eyed fool!" sighed Blake.

"If I'm a fool," flared Tom, "I inherit it!"

Cut Out Any Flowery Stuff and Bang Away at the Point.

"Of all the senseless come-backs I ever heard," commented Blake disgustedly, "that's about the latest and silliest. However, we understand each other at last—"

"I suppose," broke in Tom, with sulky contrition, "I needn't have said that. I'm sorry."

"You needn't be. Maybe you were right. Perhaps it wasn't such a punk come-back after all. But, of course, it's tough for a man to see his only son throw himself away on a—"

"Steady, dad! I won't stand for that sort of talk about her. Not even from you."

"Whether I say it or not," grumbled Blake, "you know what I think. So what's the difference?"

"When you change your mind," answered Tom, fighting hotly for self-control, "you'll have less to take back."

He jammed on his hat, flung open the door—and confronted a man and a woman—who were entering.

The woman—tall, slender, strikingly handsome—darted forward to where Jim Blake stood scowling at his son. And at sight of her the scowl changed to a light that few men had seen—or suspected—in the grim old politician's face.

"Hello, Grace!" he exclaimed in delight. "Gee, but you come like a bunch of sunshine after a Welsh-rabbit nightmare! Stand still and let's look at you! No, don't waste time kissing Tom. He's got other people to kiss."

I die?"

"Brimstone," was the reply.

Wonderful Human Stomach.

The human stomach as diagrammed in the encyclopedia resembles the map of South America, and as a potentially exercises the revolutionary characteristics of that realm. It varies in size; in youth being longer than thick, and reaching from the chin to the heels; in ripe maturity being thicker than long, and reaching from the back two feet beyond the natural plumb line.—American Magazine.

Left Charlie Guessing.

"Charlie, dear," said young Mrs. Torkins, "what is a four-dash?" "Why do you ask?" "Mother used the term in conversation this afternoon and I couldn't make sure whether she was talking about you or a game of cards."

Flat building owned by C. W. Reed, Attorney at Law, Milwaukee, Wisconsin.

This property consists of three flats, one lower and two upper; steam heat; janitor service; on Madison street; one block from street car line; three blocks from business center of Janesville, Wisconsin.

The property yields a net income of six per cent on a \$120,000 investment; flats are always rented and are in the best of repair.

Mr. Reeder, the owner, until recently lived in Janesville but is now permanently located in Milwaukee; not being able to give property his personal attention, he has concluded to offer the same for sale.

Information regarding price, terms, etc., may be secured from his local representative.

PUBLIC NOTICE.

Persons Answering Fraudulent Advertisements Asked to Notify Gazette.

The Gazette is desirous of keeping out of its columns fraudulent advertising and asks the assistance of its patrons to that end.

There are many number of persons in the country who make a living through a cleverly worded advertisement, offering golden opportunities, and these unscrupulous people find fertile ground for work among the masses.

Many orders are received in the Gazette mail for advertising which are returned as objectionable and where there is a question as to the qualifications the advertisement is omitted.

All newspapers have this experience.

But even with the utmost care there will be an occasional advertisement which will pass the scrutiny of the business department of the paper, and find its way into the columns.

The Gazette will deem it a favor if you will report to the office any trouble which
